PROFILE

Computer Engineering undergraduate with a strong interest in Data Science, Machine Learning, and Data Analytics. Experienced in Python programming, data preprocessing, exploratory data analysis, and predictive modeling. Passionate about leveraging data-driven insights to solve real-world problems and continuously expanding knowledge in AI and statistical learning.

EDUCATION

Bachelor of Science in Computer Engineering

Massachusetts Institute of Technology (MIT)

Expected Graduation: May 2027

- Current GPA: 3.78 / 4.00
 - Relevant Coursework:
 - Data Structures & Algorithms
 - Database Systems
 - Probability & Statistics
 - Machine Learning
 - Artificial Intelligence
 - Data Mining
 - Linear Algebra
-

TECHNICAL SKILLS

Programming Languages

- Python

- SQL
- Java
- C++

Data Science & Machine Learning

- Pandas
- NumPy
- Scikit-learn
- Matplotlib
- Seaborn
- TensorFlow (Basic)

Databases

- MySQL
- PostgreSQL

Tools & Platforms

- Jupyter Notebook
- Google Colab
- Git & GitHub
- Tableau
- Microsoft Excel

PROJECTS

Customer Churn Prediction

Machine Learning Project

- Developed a predictive model to identify customers likely to discontinue services.
- Performed data cleaning, feature engineering, and exploratory data analysis.
- Trained and evaluated Logistic Regression and Random Forest models.
- Achieved 87% classification accuracy.

Technologies: Python, Pandas, Scikit-learn, Matplotlib

House Price Prediction System

- Built a regression model to estimate residential property prices.
- Analyzed housing datasets containing over 20,000 records.
- Implemented feature selection and model evaluation techniques.

Technologies: Python, Scikit-learn, NumPy

Sales Analytics Dashboard

- Designed an interactive dashboard to visualize sales trends and customer behavior.
- Generated actionable insights through data visualization.
- Automated monthly reporting processes.

Technologies: Tableau, Excel, SQL

EXPERIENCE

Data Science Intern (Virtual)

ABC Analytics Solutions

June 2025 – August 2025

- Assisted in cleaning and preparing datasets for machine learning applications.
 - Conducted exploratory data analysis on customer transaction data.
 - Created visual reports and dashboards for business stakeholders.
 - Collaborated with senior analysts on predictive modeling tasks.
-

CERTIFICATIONS

- Google Data Analytics Professional Certificate
 - Machine Learning Specialization – Stanford University & DeepLearning.AI
 - Data Analysis with Python – IBM
 - SQL for Data Science – Coursera
-

ACHIEVEMENTS

- Ranked in the Top 5% of participants in a university data analytics competition.
 - Solved 250+ programming problems on coding platforms.
 - Dean's List Award (2024–2025).
-

LEADERSHIP & ACTIVITIES

Data Science Club, MIT

Member

- Participated in weekly machine learning workshops.
 - Collaborated on student-led data science projects.
 - Organized beginner-friendly Python training sessions.
-

LANGUAGES

- English (Native)
- Spanish (Intermediate)
